

summary page

Your project has been classed as:

Good on "providing opportunities for all"

Okay on "environmental enhancement & protection"

Good on "providing skills business demand & require"

You should do more to address and integrate sustainable development

The following provides a summary of the key issues of your project under each of the three elements. Follow the links for ideas on to how to improve these aspects.

providing opportunities for all

- Your project could be improved by developing stronger links and consulting more with relevant organisations or groups operating in this field. Click on the 'More Info' button for ideas and organisations that may help.
- Your project may benefit from further research of the key issues and barriers of your target groups. Click on the 'More Info' button for some ideas to help you address this.
